

## BrainTeaser

The Brain Train Kids are making goo, and each kid brings one ingredient: water, a bowl, a spoon, or the "secret ingredient." Using the clues below, can you figure out who brings what?

Use the table below to figure out who brings which ingredient. Write yes in the box under the kid's name next to the ingredient he or she brings and write no in the boxes of the ingredients that the kid does not bring. For example:

Clue #1: Jason uses a bucket to carry the water.

You fill in the table like this:

	<i>Lisa</i>	<i>Jason</i>	<i>Amy</i>	<i>Juan</i>
water	<i>no</i>	<i>yes</i>	<i>no</i>	<i>no</i>
bowl		<i>no</i>		
spoon		<i>no</i>		
secret ingredient		<i>no</i>		

Clue #2: Juan did not bring a bowl.

Clue #3: No one knows what Amy's ingredient is because it's a secret.

Station 1: Science Place
